- Graphic Design (Corel Draw)
- Content & Copywriting Course
- Project Management Fundamentals

## EDUCATION

B.Sc. Computer Science (In Progress)3rd Year, Obong University
**2022–Present**

High School Certificate
Danama International School,
**2019–2021**

## ABOUT ME

Dedicated **Backend Developer (Node.js & Express)** and **MERN Stack** enthusiast, with strong skills in **MongoDB** and frontend UI design using **HTML, CSS,** and basic **React.**

Currently a member of a **4-developer team**, collaborating on projects that combine creativity, functionality, and performance.

Goal-driven, adaptable, and eager to become a fully proficient Full Stack Developer while delivering clean, efficient, and maintainable code.

## JOB EXPERIENCE

**DIEBERE TECH HUB**
Graphic Designer — **2022**
- Created branding materials, posters, and promotional content for digital campaigns.
- Collaborated with tech teams to align visuals with project goals.

**TRULYONE TECH**
Front-End Developer — **2023**
- Built responsive interfaces using HTML & CSS.
- Assisted in UI setup for React-based applications.

**JODNA TECH**
Backend Development Intern **(Express.js) — 2024**
- Developed backend APIs and authentication systems with **Express.js & MongoDB.**
- Learned data handling, routing, and middleware structure.
